DAL 1979, IL TUO BAGNO

Baden Haus nasce nel **1979** da una realtà familiare di appena **300 metri quadrati**, fondata sulla **passione per il prodotto** e sulla **conoscenza dei materiali**. Da quella prima esperienza è iniziato un percorso di crescita continuo, fatto di lavoro, investimenti e capacità di interpretare un mercato in profonda trasformazione.

In quasi **cinquant'anni** sono cambiate le dimensioni dell'azienda, le tecnologie e i processi produttivi. È cambiato anche il ruolo del bagno, diventato uno spazio sempre più personale e integrato nell'architettura degli interni. Baden Haus ha accompagnato questa evoluzione trasformandosi in una **moderna realtà industriale**, con uno stabilimento di circa **100.000 metri quadrati** e una presenza commerciale consolidata in **oltre 45 Paesi**.

La crescita non ha significato abbandonare le proprie origini, ma tradurle in un'organizzazione più evoluta. L'esperienza maturata nel tempo convive oggi con **progettazione digitale, sistemi automatizzati e tecnologie interconnesse**. Ogni fase che conduce dall'idea al prodotto finito viene controllata per garantire **precisione, continuità e affidabilità**.

Il prodotto è sempre stato il punto di incontro delle competenze Baden Haus. È qui che convergono **ricerca estetica, conoscenza tecnica, selezione dei materiali, cura dei dettagli e attenzione alle esigenze del cliente**. Ogni collezione offre soluzioni riconoscibili ma flessibili, capaci di adattarsi a spazi e modi di vivere differenti senza perdere **coerenza e identità**.

Anche il marchio racconta questo percorso. La **goccia** rappresenta il punto di origine e il fulcro attorno al quale si sono costruiti esperienza e appartenenza; le **ellissi** evocano il movimento e l'espansione di un'azienda aperta a nuove tecnologie e nuovi mercati, ma fedele alla propria storia.

"Dal 1979, il tuo bagno" non è soltanto uno slogan. È la sintesi di un impegno che si rinnova in ogni progetto: realizzare **arredi affidabili, durevoli e pensati per la quotidianità delle persone**. Perché, ieri come oggi, il bagno è un ambiente intimo e concreto, chiamato a rispondere a esigenze reali e a diventare ogni volta personale.

SINCE 1979, YOUR BATHROOM

Baden Haus was founded in **1979** as a family-run business operating in just **300 square metres**, driven by a **passion for its products** and an in-depth **knowledge of materials**. That first venture marked the beginning of a continuous journey of growth, shaped by hard work, investment and the ability to interpret a rapidly changing market.

Over nearly **fifty years**, the scale of the company, its technologies and its production processes have all evolved. The role of the bathroom has changed as well, becoming an increasingly personal space, fully integrated into interior architecture. Baden Haus has accompanied this evolution, growing into a **modern industrial company**, with a production facility covering approximately **100,000 square metres** and an established commercial presence in **over 45 countries**.

Growth has not meant abandoning the company's origins, but translating them into a more advanced organisation. The experience built up over time now works alongside **digital design, automated systems and interconnected technologies**. Every stage, from the initial concept to the finished product, is carefully controlled to ensure **precision, continuity and reliability**.

The product has always been the point at which all Baden Haus expertise comes together. It is where **aesthetic research, technical knowledge, material selection, attention to detail and a focus on customer needs** converge. Each collection offers distinctive yet flexible solutions, designed to adapt to different spaces and ways of living without losing **coherence and identity**.

The brand itself also reflects this journey. The **drop** represents the point of origin, the core around which experience and a sense of belonging have developed; the **ellipses** evoke the movement and expansion of a company open to new technologies and new markets, while remaining faithful to its history.

"Your bathroom, since 1979" is more than a slogan. It expresses a commitment renewed in every project: to create **reliable, durable bathroom furniture designed for people's everyday lives**. Because today, just as in the past, the bathroom is an intimate and practical space, created to meet real needs and become personal every time.

MATERIA E RESPONSABILITÀ

La qualità di un arredo comincia dalla **materia**: dalla sua origine, dalle prestazioni e dalla capacità di mantenere nel tempo **valore estetico e funzionale**. Per questo Baden Haus seleziona **materiali affidabili e certificati**, valutandone il comportamento durante la lavorazione e nell'uso quotidiano.

L'adesione al programma **PEFC** testimonia l'attenzione verso una **gestione responsabile delle risorse forestali**. A questa scelta si affiancano processi orientati alla **riduzione degli sprechi**, al recupero delle risorse e a un impiego più efficiente dell'energia.

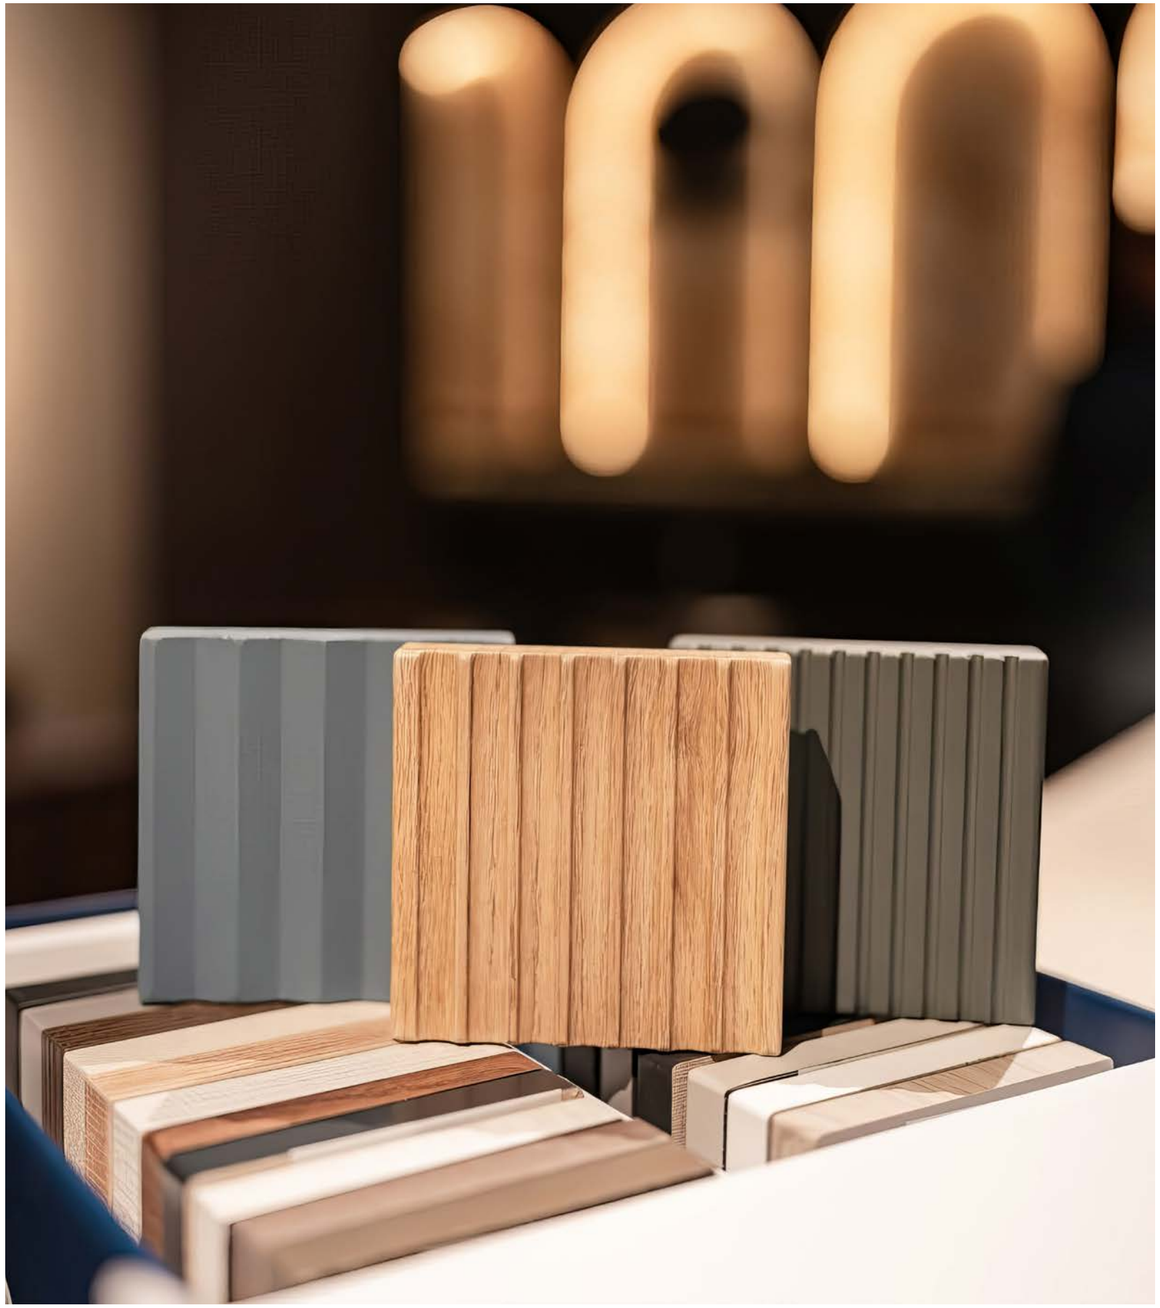

La responsabilità riguarda anche il **packaging**, sviluppato per limitare l'uso della plastica e privilegiare cartone e materiali recuperati. Una **sostenibilità concreta**, integrata nel modo di progettare e produrre.

MATERIALS AND RESPONSIBILITY

The quality of a piece of furniture begins with its **materials**: their origin, performance and ability to preserve their **aesthetic and functional value** over time. For this reason, Baden Haus selects **reliable, certified materials**, carefully assessing their performance throughout the production process and in everyday use.

Membership of the **PEFC programme** reflects the company's commitment to the **responsible management of forest resources**. This approach is supported by processes designed to **reduce waste**, recover resources and use energy more efficiently.

Responsibility also extends to **packaging**, developed to limit the use of plastic and favour cardboard and recovered materials. A form of **practical sustainability**, fully integrated into the way Baden Haus designs and manufactures its products.

TECNOLOGIA E INDUSTRIA 4.0

La tecnologia rende il processo produttivo più preciso, misurabile e condiviso. In Baden Haus, **impianti automatizzati, sistemi digitali e processi interconnessi** dialogano tra loro per controllare le diverse fasi della produzione e garantire risultati costanti nel tempo.

L'adozione delle **tecnologie Industria 4.0** ha consentito di sviluppare un modello produttivo più efficiente, nel quale **dati, macchine e competenze operano come un unico sistema integrato.**

Il **monitoraggio continuo** permette di ottimizzare le lavorazioni, limitare gli sprechi e contenere i consumi energetici. Una **Smart Factory avanzata**, guidata da persone capaci di trasformare l'innovazione in qualità concreta.

TECHNOLOGY AND INDUSTRY 4.0

Technology makes the production process more precise, measurable and connected. At Baden Haus, **automated systems, digital technologies and interconnected processes work** together to control the different stages of production and ensure consistent results over time.

The adoption of **Industry 4.0 technologies** has enabled the development of a more efficient production model, in which **data, machines and expertise operate as a single integrated system.**

Continuous monitoring helps optimise production processes, reduce waste and contain energy consumption. An **advanced Smart Factory**, guided by people capable of transforming innovation into tangible quality.

DESIGN IN EVOLUZIONE

Il bagno contemporaneo evolve insieme agli stili, agli spazi e ai modi di abitare. Per questo Baden Haus **aggiorna costantemente la propria offerta**, sviluppando collezioni capaci di interpretare le nuove tendenze attraverso forme, proporzioni e soluzioni funzionali sempre attuali.

Ogni famiglia di prodotto nasce da **una precisa identità progettuale** ed è proposta in diverse dimensioni e configurazioni, dalle più compatte alle più ampie. Una varietà di proposte pensata per offrire **la soluzione più adatta a ogni spazio**, senza rinunciare alla funzionalità e alla coerenza estetica della collezione.

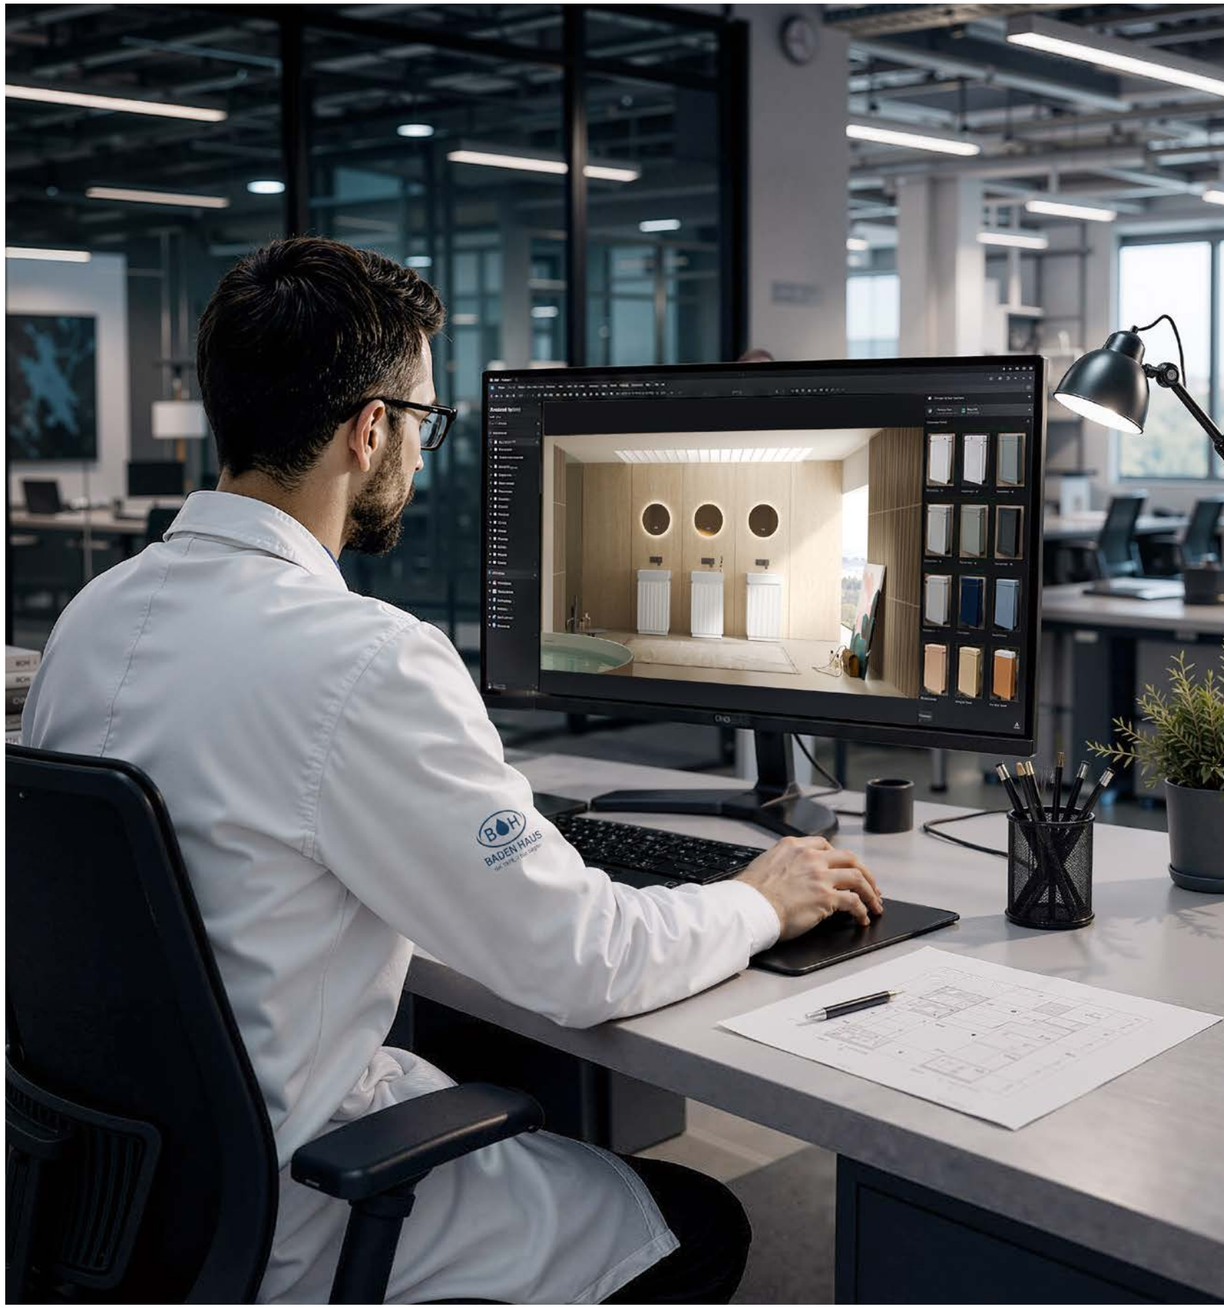

La continua evoluzione delle linee produttive permette di **trasformare le idee del design in proposte concrete, affidabili e accessibili**. Nasce così un catalogo ampio e dinamico, composto da collezioni differenti ma riconoscibili, capace di rispondere ai cambiamenti del mercato e alle nuove esigenze dell'abitare contemporaneo.

Ogni partecipazione è più di una semplice esposizione: è un'occasione per presentare **nuove collezioni**, osservare l'evoluzione dell'abitare e raccogliere indicazioni provenienti da culture e mercati differenti. Lo stand diventa così un **luogo di incontro** nel quale il marchio prende forma attraverso prodotti, materiali, architettura e dialogo. Condizioni generali di fornitura

Le presenti Condizioni Generali di Fornitura, ove non derogate da specifico accordo scritto delle parti, si applicano a tutti gli ordini pervenuti ed accettati da Baden Haus spa e costituiscono parte integrante degli stessi.

1 - Caratteristiche dei prodotti
L'Acquirente, con la formulazione dell'ordine di acquisto, riconosce di aver attentamente esaminato le caratteristiche tecniche, funzionali ed estetiche dei prodotti ordinati e di ritenerle idonee all'uso cui intende, direttamente o indirettamente, destinarli. Si impegna inoltre a non apportare alcuna modifica al prodotto e a rispettare, dichiarando di conoscerle, le sue corrette modalità di utilizzazione.

2 - Ordini e Conferme d'ordine
Gli ordini dell'Acquirente dovranno indicare il numero d'ordine, l'esatta indicazione dei beni ordinati con riferimento al loro codice prodotto, la loro quantità, il prezzo unitario e complessivo, i termini di pagamento concordati, il luogo di destinazione ed eventuali ulteriori istruzioni per la consegna. L'ordine si intenderà accettato dal Fornitore quando perverrà all'Acquirente la Conferma d'Ordine da parte del Fornitore. Nel caso in cui l'ordine sia preceduto da offerta da parte del Fornitore, quest'ultima si riterrà valida per la durata massima di 30 giorni, salvo diversa indicazione. Il contratto di vendita si intenderà in ogni caso perfezionato al momento della conferma dell'ordine da parte del Fornitore. Non si accettano cancellazioni di ordini dopo i 4 giorni dalla ricezione degli stessi.

3 - Prezzi
I prezzi dei beni sono indicati nella conferma d'ordine e, ove non diversamente specificato, si intendono espressi in Euro, al netto dell'IVA, e sono comprensivi di imballo idoneo alla spedizione. I costi di spedizione, ove non diversamente indicato, si intendono sempre esclusi e saranno a carico dell'Acquirente. I prezzi non comprendono in ogni caso oneri doganali, dazi, imposte o tasse per l'esportazione e simili.

4 - Pagamenti
Il pagamento del prezzo dei prodotti dovrà essere effettuato dall'Acquirente esclusivamente sul conto corrente bancario di volta in volta indicato dal Fornitore e nei termini indicati nella conferma d'ordine. In caso di ritardo nei pagamenti rispetto ai termini indicati in fattura, all'Acquirente, senza necessità di specifica costituzione in mora, verranno addebitati gli interessi di mora al tasso vigente previsto dal D.Lgs. 231/2002. Sino all'integrale saldo delle forniture arretrate, il Fornitore potrà sospendere l'evasione degli ordini in corso senza alcuna penale e con rinunzia dell'acquirente in mora al risarcimento dei danni.

5 - Trasporto e consegna
La merce viene consegnata o messa a disposizione secondo la modalità di resa concordata, secondo le regole Incoterms in vigore.
I termini di consegna, ove non espressamente indicati come essenziali, si intendono sempre indicativi. Ritardi dovuti a cause di forza maggiore non danno diritto all'annullamento dell'ordine o alla richiesta dei danni. In caso di mancato ritiro o di impossibilità di consegna dei prodotti, nell'ipotesi in cui gli stessi rimangano in giacenza presso il corriere, l'Acquirente, oltre al valore della fornitura, sarà tenuto al pagamento, per ogni settimana di giacenza dopo i primi 3 giorni, a fronte dei costi di deposito ed amministrativi, di un importo pari allo 0,5% del valore complessivo della merce non consegnata, in aggiunta alle eventuali spese addebitate dal vettore.

6 - Contestazioni sulle forniture
Eventuali reclami sulla quantità o integrità delle confezioni o dei prodotti dovranno essere avanzati direttamente al vettore al momento della consegna con l'apposizione specifica di non conformità o di danno dichiarato sulla bolla o sulla lettera di vettura. I prodotti forniti dal Venditore sono conformi alle normative attualmente in vigore. Eventuali contestazioni sul materiale non daranno diritto all'Acquirente di sospendere o ritardare in tutto o in parte il pagamento nei termini pattuiti. Eventuali vizi nei prodotti consegnati dovranno essere comunque denunziati al Fornitore, in forma scritta entro otto giorni dalla consegna e non potranno impegnare oltre l'obbligo della pura e semplice sostituzione dei mobili o parti di essi riconosciuti difettosi. E' inteso che il materiale messo in opera è considerato accettato. Per tale ragione, la posa in opera del materiale determina la decadenza dall'azione per vizi manifestamente riconoscibili e palesi, importando per gli stessi rinuncia implicita alla garanzia di cui all'art. 1490 C.C. Il Venditore non risponde in ogni caso dei danni derivanti dall'uso improprio e/o dalla messa in opera di materiali difformi o viziati, lo stesso non potrà considerarsi responsabile e non sarà tenuto a garantire l'Acquirente in caso di danni conseguenti al non corretto utilizzo del predetti prodotti .
Eventuali difformità nella quantità dei beni consegnati rispetto all'ordine non daranno diritto alla risoluzione del contratto né alla sospensione di pagamenti, ma solo all'integrazione della fornitura con i beni mancanti. Salvo diverso accordo, l'Acquirente si impegna ad accettare una tolleranza quantitativa del 5% sulle forniture. La restituzione della merce dovrà in ogni caso essere autorizzata dal Fornitore.

7 - Garanzia
La garanzia del Fornitore circa la qualità dei prodotti forniti viene prestata nei limiti di quanto indicato nella scheda tecnica del prodotto, che l'Acquirente dichiara di conoscere. Ove non diversamente indicato nell'offerta o nella conferma d'Ordine, la garanzia avrà la durata di mesi 24 dalla data di consegna, per prodotti in normali condizioni di conservazione. La garanzia non opererà, in ogni caso e a titolo esemplificativo, ove siano riscontrabili:
- Errori nell'installazione del mobile
- Errate modalità di stoccaggio, conservazione e manutenzione del prodotto.
- Manomissione o tentativi diretti di riparazione o modificazione del prodotto.
- Tardivo intervento per limitare le conseguenze di eventuali anomalie di funzionamento del prodotto.
- Normale deterioramento del prodotto conseguente al suo utilizzo.

La garanzia opererà esclusivamente per i prodotti acquistati direttamente da Baden Haus spa

8 - Responsabilità contrattuale
Ad esclusione delle ipotesi di dolo o colpa grave, in nessun caso il Fornitore risponderà per danni a persone o a cose derivanti dall'uso del prodotto fornito. La responsabilità non si estenderà in ogni caso ai danni indiretti, non prevedibili e comunque al di fuori delle ipotesi per cui possa operare la garanzia sul prodotto.

9- Migliorie
Il Fornitore si riserva di apportare ai prodotti eventuali implementazioni e migliorie tecniche e/o estetiche che, senza alterare le caratteristiche essenziali dei beni forniti e la loro utilizzabilità secondo le specifiche alla base dell'ordine, ne rendano più sicuro ed agevole il funzionamento. Tali difformità non potranno dar luogo alla risoluzione del contratto di fornitura.

10 - Riservatezza
L'Acquirente si impegna a mantenere riservate e a non divulgare a terzi, ove ciò non sia strettamente necessario ai fini della legittima utilizzazione dei beni acquistati, per tutta la durata del rapporto e per ulteriori anni tre dalla consegna dell'ultima fornitura di ogni prodotto, ogni informazione o dato tecnico relativi ai prodotti acquistati, al loro funzionamento o utilizzazione, così come ogni informazione amministrativa o commerciale relativa al contratto di vendita dei beni stessi (prezzo, termini di pagamento e garanzia ecc.).

11 - Proprietà industriale ed intellettuale
L'acquisto dei prodotti e la loro utilizzazione, diretta o indiretta, non darà luogo al trasferimento in capo all'acquirente di alcun diritto di proprietà industriale od intellettuale sui prodotti venduti, che permarrà in capo al Fornitore.

12 - Clausola risolutiva espressa

L'inosservanza dei termini di pagamento dà diritto al Fornitore di risolvere di diritto il contratto ex art. 1456 del cod. civ. dandone comunicazione scritta all'Acquirente a mezzo di lettera raccomandata A/R, salvo in ogni caso il diritto del Fornitore di trattenere quanto ricevuto dall'Acquirente a titolo di indennizzo per il danno subito e per l'uso della merce da parte dell'Acquirente, salve ed impregiudicate ulteriori azioni per il risarcimento del danno; di sospendere ogni evasione di ordini o residui d'ordini in corso; di addebitare all'Acquirente (senza pregiudizio di altre azioni) a partire dal giorno della loro scadenza, gli interessi di mora previsti per legge e, ove previsto, gli interessi di mora corrispondenti al tasso determinato in misura pari al saggio di interesse del principale strumento di rifinanziamento della Banca Centrale Europea, maggiorato di sette punti percentuali, così come precisato all'art. 5 del D.L. 231 del 9/10/2002, senza necessità di formale costituzione in mora dell'Acquirente.

13 - Foro competente
Competente in via esclusiva per ogni controversia nascente dal rapporto di fornitura, ivi comprese le azioni del Fornitore per il recupero dei propri crediti, sarà il Foro di Ascoli Piceno. Il rapporto di fornitura sarà in ogni caso regolato dalla legge italiana.

It commits itself not to carry out any change on the product and to comply with its correct use conditions, stating to know them.

2 - Orders and orders confirmations
The Purchaser's orders shall mention the order number, the exact mentioning of ordered assets with reference to possible products code, the quantity, the unit and total price, terms of payment and the destination site and possible delivery instructions. The order shall be considered accepted by the Supplier when the Purchaser Order Confirmation is sent by the Supplier to the Purchaser. In case the order is preceded by Supplier's offer, this latter shall be considered valid for maximum 30 days, unless otherwise stated. The sale contract shall be considered fulfilled in any case at time of order confirmation by the Supplier. Cancellation of orders won't be accepted after 4 days from order confirmation.

3 - Prices

4 - Payments
The payment of the products price shall be carried out by the Purchaser to the current account from time to time identified by the Supplier and according to terms and conditions identified in the order confirmation. In case of payment delay with respect to terms identified in the invoice, the Purchaser, without need of formal notice, shall charge the default interests at the current rate envisaged by L.D. 231/2002. 6 -Supplies complaints

The products supplied by the Supplier comply with the regulations currently in force. Any disputes on the products will not entitle the Purchaser to suspend or delay payment in whole or in part within the agreed terms. Possible defects in delivered products shall be however notified to the Supplier, in written form, including in any case registered letter with advice of receipt, within eight days from deliver and will not be able to commit the supplier beyond the obligation of the simple replacement of the product or parts of it recognized as defective. It is understood that the product put in place is considered accepted. For this reason, the installation of the product determines the forfeiture from the action for defects manifestly recognizable, importing for the same implied renunciation to the guarantee of art. 1490 C.C. The Supplier is not liable in any case for damages resulting from the improper use and/or implementation of defective or not compliant products, the same will not be liable and will not be obliged to guarantee the Purchaser in case of damage resulting from the incorrect use of the aforementioned products.

The Purchaser commits itself no to use possible defective products and to warn without delay possible complaints by third parties it is aware of.

Unless otherwise stated in the Supplier's Offer or in the Order Confirmation, the warranty shall have a term of 24 months from delivery date, for products in normal preservation conditions. The warranty shall not be applicable in case, just for reference, in case the following are acknowledged:
- Installation errors.
- Error in product storage, preservation and maintenance methods.

The warranty will exclusively be applicable to products directly purchased from Baden Haus spa.

8 - Contract liability
Excluding the assumptions of fraud or serious misconduct, in no case the Supplier will be liable for damages to people or things deriving from the supplied product use. The liability shall not be extended in any case to indirect damages, not expectable and however for circumstances other than those the warranty can be applied to.

9 - Improvements
The Supplier reserves the right to carry out possible implementations and or technical and/or esthetical improvements, without altering the supplied goods essential features and their usability according to specifications mentioned in the order, and which make its operation safer and easier. Such new characteristics shall not give rise to the supply contract discharge.

10 - Confidentiality
The Purchaser commits to keep any and all information or technical data relating to purchased products, their operation or use, as well as any administration or commercial information relating to the assets sale contract (price, terms of payment and warranty etc.) confidential and not to disclose them to third parties, when this is not strictly necessary for the legal use of purchased assets, and for all the relationship terms and for further three years from each product last delivery.

11 - Industrial and intellectual property
The purchase of products and their direct or indirect use shall not give rise to any transfer for the purchaser of any industrial or intellectual property right on sold products, which shall remain the Supplier's right.

12 - Termination clause
Non-compliance with the terms of payment entitles the Supplier to terminate the contract ex art. 1456 of cod. civ. giving written notice to the Purchaser by registered letter A/R, except in any case the Supplier's right to withhold what has been received by the Purchaser as compensation for the damage suffered and for the use of the goods by the Purchaser, unless and without prejudice to further actions for compensation for damage; to suspend any execution of orders or residual orders in progress; to charge to the Purchaser (without prejudice to other actions) from the day of their expiration, the default interest provided by law and, where applicable, interest on arrears corresponding to the rate determined by the main refinancing instrument of the European Central Bank plus seven percentage points, as specified in art.
